

Katro-Lek

<https://mhc.andornot.com/en/permalink/artifact2250>

Accession Number:	996001171
Collection:	Dr. Michael A. Chiong Patent Medicine Collection
Category:	Pharmacy and Drug Artifacts
Classification:	Pharmacy, Gastrointestinal
MeSH Heading:	Cathartics Constipation -- drug therapy Drugs, Non-Prescription MM= Drugs -- patent, proprietary, over-the-counter -- container MM= Drug Packaging -- container -- bottle
Description:	Rectangular semi-transparent brown glass bottle with recessed panels on all sides and cream paper label with brown text adhered around entire bottle; long cylindrical neck with gray screw-on cap.
Number Of Parts:	1
Provenance:	Acquired by Dr. M. Chiong for his patent medicine collection; purchased from Goodrich USA in Oct.1993.
Maker:	W. Wojtasiński Drug Co.
Site Made (City):	Boston
Site Made (State):	Massachusetts
Site Made (Country):	United States of America
Dates:	1916 1934 circa 1916-1934
Material:	glass: brown paper: cream ink: brown metal: gray
Inscriptions:	On label: "6 Fl. Oz. // KATRO-LEK // Reg. U. S. Patent Office // Alcohol 20% // Stomachic and tonic Laxa- // tive. This medicine has been // tried out by thousands and // found to be beneficial for gas- // tritis, temporary constipation, // dyspesia due to hyper acid- // ity. Improves the appetite. In- // creases the red blood corp- // uscles. It acts on the bowels // as a laxative tonic. // DIRECTIONS // Tablespoonful half-hour af // ter each meal or two table- // spoonfuls at bed-time, followed // with a glass of water. // CHILDREN - One to three // teaspoonfuls daily. // Price \$1.00 // (Same information repeated in Polish) // W. Wojtasiński Drug Co. // Boston // Mass. // U.S.A."; on sides: "Beware of Imitations and be sure You get the Genuine // KATRO-LEK // REG. U. S. PAT. OFFICE // The Famous Stomachic, Laxative and Tonic // SHAKE WELL BEFORE USING" (Same information repeated in Polish on other side panel)
Permanent Location:	Storage Room 0010 0010-A1-2 Row A
Dimension Notes:	Length: 20.6 cm. x Width: 6.6 cm. x Depth: 3.6 cm.
Condition Remarks:	Paper has become discoloured, brittle in many places and adhesive is coming through and creating raised crusty areas; fading and stained paper
Copy Type:	Original

pelvimeter

<https://mhc.andornot.com/en/permalink/artifact11348>

Accession Number: 997002427

Collection: Queen's University Faculty of Medicine Collection

Category: Diagnostic & Treatment Artifacts

Classification: Obstetrics

MeSH Heading: Pelvimetry -- instrumentation

Description: A metal pelvimeter consisting of two curved arms; connected at one end with a wing nut; as the arms spread apart a scale moves downwards; the distance between the tips of the arms is measured on the scale; each arm tip is spherical in shape.

Number Of Parts: 1

Provenance: Collected by Dr. A. A. Travill for Queen's Faculty of Medicine.

Maker: J. F. Hartz Co.
 Site Made (Country): [Germany](#)
 Dates: 1915
 1930
 circa 1915-1930
 Date Remarks: Similar to item found in catalogue of the same date
 Material: metal: silver
 Incriptions: Etched into the metal bar that connects the scale to the left arm is "GERMANY"; etched into the metal bar that connects the scale to the right arm is "J. F. HARTZ Co."; as well the scale is etched on to a flat rectangular piece of metal "; an incremental scale is marked onto a metal piece as well as 1 // 2 // 3 // 4 // 5 // 6 // 7 // 8 // 9 // 10 // 11 // 12 // 13 // 14 // 15 // 16" stamped into the metal of the left side of the piece and: "5 // 10 // 15 // 20 // 25 // 30 // 35 // 40" stamped into the right side.
 Permanent Location: Storage Room 0010
 0010 -D7-4
 Temporary Location: On display "Doctor's Treatment Room c1930" at Museum of Health Care 20 Feb 2016.
 Dimension Notes: Length 29.1 cm x Width 15.3 cm x Depth 3.6 cm
 Condition Remarks: Some small dirty spots.
 Copy Type: Original
 Reference Types: Book
 JPG
 Reference Comments: "Surgical Instruments," by The Kny-Scheerer Company, 1915, p. 5028 (item #E/-1231); CD #1.
 Research Facts: This is a modified Collyer's pelvimeter; used to measure the distance between the curved surfaces of the pelvic bone; pelvimeter measures in cm (0-40 in 1-cm increments) and inches (0-16 in 1/2-inch increments).
 Exhibit History: To display in Museum: "Potions, Pills and Prescriptions"; May 1, 2000 - 28 Jan 2017.

pocket medicine case

<https://mhc.andornot.com/en/permalink/artifact12979>

Accession Number: 997002433 a-k
 Collection: [Queen's University Faculty of Medicine Collection](#)
 Category: [Pharmacy and Drug Artifacts](#)
 Classification: [Pharmacy, General](#)
 MeSH Heading: [Drug Therapy](#)
 MM= Drug Packaging -- container -- vial

Description: A rectangular double folded leather set of pocket pharmaceutical case (a) with leather loops to hold ten glass vials with metal screw-top caps (b-k) in two separate groups of six; missing two vials; all vials are empty; without labels; each section has two leather side flaps to contain contents; once folded metal snap closure.

Number Of Parts: 11

Part Names: a - case - Size (folded): Length 10.7 cm x Width 9.1 cm x Depth 4.3 cm
b - vial - Size: Length 7.7 cm x Diam. 1.4 cm
c - vial - Size: Length 7.7 cm x Diam. 1.4 cm
d - vial - Size: Length 7.7 cm x Diam. 1.4 cm
e - vial - Size: Length 7.7 cm x Diam. 1.4 cm
f - vial - Size: Length 7.7 cm x Diam. 1.4 cm
g - vial - Size: Length 7.7 cm x Diam. 1.4 cm
h - vial - Size: Length 7.7 cm x Diam. 1.4 cm
i - vial - Size: Length 7.7 cm x Diam. 1.4 cm
j - vial - Size: Length 7.7 cm x Diam. 1.4 cm

Provenance: Donated by Dean Barry Smith, Faculty of Medicine, Queen's University.

Maker: The J. F. Hartz Co. Limited

Site Made (City): [Toronto](#)

Site Made (State): [Ontario](#)

Site Made (Country): [Canada](#)

Dates: 1900
1930
circa 1900-1930

Date Remarks: Donor

Material: leather: black, brown
glass: clear
metal: grey, brown
ink: yellow

Inscriptions: Printed on upper flap interior: " THE J. F. HARTZ Co., LIMITED // TORONTO"

Permanent Location: Storage Room 0010
0010-A6-5

Condition Remarks: Leather worn on main exterior flap and edges; leather slightly hardened; minor green / blue corrosion on several metal caps; vial interiors contain powdery residue

Copy Type: Original

urethral dilator set

<https://mhc.andornot.com/en/permalink/artifact13026>

Accession Number: 997002441 a-k
Collection: [Queen's University Faculty of Medicine Collection](#)
Category: [Diagnostic & Treatment Artifacts](#)
Classification: [Urology](#)
MeSH Heading: [Dilatation](#)
[Urology -- instrumentation](#)
[Physical Examination](#)
[MM= Dilatation -- dilator -- urethral](#)

Description: Male urethral dilator set consisting of a black leather rectangular case with clasp closure lid (a); brown leather interior holds ten metal dilators, sized on the French scale: 32 (b), 30 (c), 28 (d), 26 (e), 24 (f), 22 (g), 20 (h), 18 (i), 12 (j), 10 (k); dilators have flat ends with rounded sides which taper into a cylindrical shape with a rounded end; these ends curve upward

Number Of Parts: 11

Part Names: a - case - Size: Length 36.0 cm x Width 14.9 cm x Depth 4.0 cm
b - dilator - Size: Length 27.5 cm x Diam. 1.6 cm
c - dilator - Size: Length 27.5 cm x Diam. 1.0 cm
d - dilator - Size: Length 27.5 cm x Diam. 0.93 cm
e - dilator - Size: Length 27.0 cm x Diam. 0.86 cm
f - dilator - Size: Length 27.0 cm x Diam. 0.8 cm
g - dilator - Size: Length 26.5 cm x Diam. 0.73 cm
h - dilator - Size: Length 26.5 cm x Diam. 0.66 cm
i - dilator - Size: Length 26.5 cm x Diam. 0.4 cm
j - dilator - Size: Length 24.0 cm x Diam. 0.33 cm
k - dilator - Size: Length 24.0 cm x Diam. 0.3 cm

Provenance: Donated by Dean Barry Smith, Faculty of Medicine, Queen's University

Site Made (Country): [United States of America](#)

Dates: 1920
1960
circa 1920-1960

Date Remarks: Based on supplier's catalogue

Material: metal: silver
leather: black, brown

Inscriptions: (b) Stamped on end: "AM-S-T-A // 32 // STANDARD"; (c) stamped on end: "A-S-T-A // 30 // STANDARD"; (d) stamped on end: "A-S-T-A // 28 // STANDARD"; (e) stamped on end: "A-S-T-A // 26 // STANDARD"; (f) stamped on end: "A-S-T-A // 24 // STANDARD"; (g) stamped on end: "A-S-T-A // 22 // STANDARD"; (h) stamped on end: "A-S-T-A // 20 // STANDARD"; (i) stamped on end: "A-S-T-A // 18 // STANDARD"; (j) stamped on end: "A-S-T-A // 12 // STANDARD"; (k) stamped on end: "A-S-T-A // 10 // STANDARD"

Permanent Location: Storage Room 0010
0010-E7-14

Condition Remarks: Case is slightly scuffed, especially at corners; leather inside case is faded in parts; two dilators are missing

Colles splint, child

<https://mhc.andornot.com/en/permalink/artifact13553>

Accession Number:	997002506
Collection:	Queen's University Faculty of Medicine Collection
Category:	Diagnostic & Treatment Artifacts
Classification:	Orthopedic Surgery
MeSH Heading:	Splints External Fixators Orthopedic Fixation Devices Fracture Fixation -- instrumentation Forearm Injuries Pediatrics
Description:	A moulded left forearm bar style Colles splint child sized of cast metal that resembles the shape of a forearm; the concave arm brace has upturned sides that can be bent and shaped to the human arm and has 15 diamond-shaped cutouts arranged in three vertical lines of five cutouts each; towards the hand the brace twists slightly and narrows before joining with a cast hammer-like handgrip
Number Of Parts:	1
Provenance:	Donated by Dean Barry Smith, Faculty of Medicine, Queen's University
Maker:	Zimmer Manufacturing Company
Site Made (City):	Warsaw
Site Made (State):	Indiana
Site Made (Country):	United States of America
Dates:	1935 1945 circa 1935-1945
Date Remarks:	Based on Zimmer Catalogue from 1940, p. 17 (similar to model No. 13 F) (see attached photocopy)
Material:	metal: gray
Inscriptions:	Stamped into metal at bottom of splint on the back side: "ZIMMER MFG. CO. // WARSAW [logo with a capital Z inside a diamond shape] IND. U.S.A. // 13 F"
Permanent Location:	Storage Room 0010 0010-E2-16
Dimension Notes:	Length 22.3 cm x Width 8.4 cm x Depth 3.6 cm
Condition Remarks:	Scratches present all over splint; hand grip exhibits signs of pitting and discolouration; discolouration and pitting of metal present on back side; there are adhesive marks at the base of the handle and on the back left hand edge of the splint
Copy Type:	Original
Reference Types:	Internet JPG
Reference Comments:	Zimmer Manufacturing Company Website. January 7, 2009, March 23, 2011.
Research Facts:	Justin O. Zimmer began Zimmer Manufacturing Company in Warsaw Indiana in 1927; the Zimmer line of 50 aluminum splints debuts at the American Medical Association meeting in May of 1927 in Washington, D.C. and the Zimmer splint becomes an immediate leader in its field; the colles splint is generally used for distal-end fractures of the ulna and radius; it can be fitted to the correct angle of flexion by slightly twisting and bending; handpiece is contoured to fit the hand

intravenous stand

<https://mhc.andornot.com/en/permalink/artifact11666>

Accession Number: 997010005
Collection: [Hotel Dieu Hospital Collection](#)
Category: [Patient Care Artifacts](#)
Classification: [Patient Care](#)
MeSH Heading: [Equipment and Supplies, Hospital Infusions, Intravenous](#)

Description: intravenous stand consists of a long vertical metal pole joined to middle of a short horizontal rod at the top; vertical rod has a hole in the middle and horizontal rod has a whole on each end; the pole is supported by an enameled round base; bottom of base has cement showing through holes in wooden backing; rubber feet on bottom of base.

Number Of Parts: 1
Provenance: Used at Hotel Dieu Hospital.
Dates: 1925
1935
circa 1925-1935

Date Remarks: Date based on appearance

Material: metal: yellow, cream
wood: brown
rubber: black
cement: white

Permanent Location: Storage Room W1
W1-9-1

Dimension Notes: Length 192.0 cm x Width 38.0 cm x Depth 26.0 cm

Condition Remarks: Metal rods slightly scratched; enamel on base scratched and is chipping off revealing metal underneath; wood in base slightly cracked and moisture-stained; cement showing through holes in the wood; rubber legs on bottom of base stiff and broken.

Copy Type: Original

Reference Types: JPG

Reference Comments: CD #5

Research Facts: Object used to support devices for intravenous infusion.
